Notes to the Condensed Interim Financial Statements

(Unaudited, in Canadian Dollars)

1. NATURE OF OPERATIONS AND LIQUIDITY RISK

Harfang Exploration Inc. (the “Corporation”) was incorporated on March 30, 2010 under the *Business Corporations Act* (British Columbia) and on June 22, 2017, in conjunction with a reverse takeover, continued under the *Business Corporations Act* (Québec). The Corporation’s shares are listed on the TSX Venture Exchange (the “Exchange”) under symbol HAR. The Corporation’s head office is located at 1100, avenue des Canadiens-de-Montréal, Suite 300, Montréal, Québec, Canada.

The Corporation, an exploration and evaluation stage company, is in the business of acquiring and exploring mineral properties in Canada. Its focus is currently on the exploration and evaluation of its mineral properties in the James Bay area in the Province of Québec for precious metals.

Until it is determined that properties contain mineral reserves or resources that can be economically mined, they are classified as exploration and evaluation properties. The recoverability of deferred exploration and evaluation expenses is dependent on the discovery of economically recoverable reserves and resources; securing and maintaining title and beneficial interest in the properties; the ability to obtain necessary financing to continue the exploration, evaluation and development of its properties; and obtaining certain government approvals or proceeds from the disposal of properties. Changes in future conditions could require material impairment of the carrying value of the exploration and evaluation assets. Although the Corporation has taken steps to verify title to its mining properties on which it is currently conducting exploration and evaluation work, in accordance with industry standards for the current stage of exploration and evaluation of such property, these procedures do not guarantee the Corporation’s title. Property title may be subject to unregistered prior agreements and non-compliance with regulatory requirements.

These unaudited condensed interim financial statements (the “Financial Statements”) have been prepared on the basis of accounting principles applicable to a going concern, which contemplates the realization of assets and settlement of liabilities in the normal course of business as they come due. In assessing whether the going concern assumption is appropriate, management takes into account all available information about the future, which is at least, but not limited to twelve months from the end of the reporting period. For the six months ended July 31, 2021, the Corporation reported a net loss of \$1,791,588 and has accumulated a deficit of \$8,044,108 up to that date. As at July 31, 2021, the Corporation had working capital of \$8,053,419 (\$7,466,502 as at January 31, 2021). From this working capital, the Corporation has to dedicate \$648,385 and \$2,000,000 respectively to Canadian mining properties exploration activities, pursuant to the terms of the flow-through financings completed on December 24, 2020 and June 25, 2021 by the Corporation.

Management of the Corporation believes that it has sufficient funds to maintain the status of its current exploration obligations and keep its properties in good standing, to pay its ongoing general and administrative expenses and to meet its liabilities, obligations and existing commitments for the ensuing 12 months as they fall due. The Corporation’s ability to continue future operations beyond twelve months and fund its exploration and evaluation expenditures is dependent on management’s ability to secure additional financing in the future, which may be completed in a number of ways, including, but not limited to, the issuance of debt or equity instruments. The completion of three non-brokered private placements in 2020 and one non-brokered private placement in 2021 (note 6), contributed to such financing. Management will pursue such additional sources of financing when required, and while management has been successful in securing financing in the last 12 months, there can be no assurance it will be able to do so in the future or that these sources of funding or initiatives will be available for the Corporation or that they will be available on terms which are acceptable to the Corporation.

2. SIGNIFICANT ACCOUNTING POLICIES

2.1 Statement of Compliance

These Financial Statements have been prepared in accordance with the *International Financial Reporting Standards* ("IFRS") as issued by the *International Accounting Standards Board* ("IASB") applicable to the preparation of interim financial statements, including *International Accounting Standard* ("IAS") 34, *Interim Financial Reporting*. Accordingly, the Financial Statements do not include all of the information and footnotes required by IFRS for complete financial statements for year-end reporting purposes.

The Financial Statements were approved by the Corporation's Board of Directors on September 22, 2021.

2.2 Basis of Presentation

The Financial Statements should be read in conjunction with the annual financial statements for the year ended January 31, 2021 of the Corporation, which have been prepared in accordance with IFRS as issued by the IASB. The accounting policies, methods of computation and presentation applied in the Financial Statements are consistent with those of the Corporation's previous financial year ended January 31, 2021.

3. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS

The preparation of financial statements in conformity with IFRS requires the Corporation to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the Financial Statements and the reported amounts of revenues and expenses during the reporting period. The Corporation also makes estimates and assumptions concerning the future. The determination of estimates requires the exercise of judgement based on various assumptions and other factors such as historical experience and current and expected economic conditions. Actual results could differ from those estimates.

Estimates and assumptions are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

In preparing the Financial Statements, the significant judgements made by management in applying the Corporation's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the Corporation's audited annual financial statements for the year ended January 31, 2021.

4. CASH

The balance on flow-through financing not spent according to the terms of the financings completed on December 24, 2020 and June 25, 2021 by the Corporation represents \$648,385 and \$2,000,000 respectively, as at July 31, 2021, and is included in cash. The Corporation has to dedicate these funds to Canadian mining properties exploration activities by December 31, 2022.

6. SHARE CAPITAL

The Corporation is authorized to issue an unlimited number of common voting shares without par value.

a) Private placement (June 2021)

On June 25, 2021, the Corporation closed a non-brokered private placement consisting of 4,000,000 flow-through common shares at a price of \$0.50 per flow-through common share for a gross proceed of \$2,000,000.

Regarding this flow-through private placement of \$2,000,000, the Corporation's share market value at closing was \$0.38, therefore the residual value attributed to the benefit related to flow-through shares renunciation was \$0.12 for a total value of \$480,000 credited to the liability related to the premium on flow-through shares.

Share issue expenses, including the finder's fees of \$52,425, totaled \$78,154 of which \$59,397 was allocated to capital stock and \$18,757 to flow-through premium.

The Corporation has a stock option plan (the "Plan"). The number of options granted is determined by the Board of Directors. The exercise price of any option granted under the plan shall be fixed by the Board of Directors at the time of grant and shall not be lower than the closing price on the day preceding the grant. The term of the option will not exceed ten years from the date of grant. The options vesting period is determined by the Board of Directors. On July 14, 2021, the shareholders of the Corporation renewed the stock option plan which provides that the maximum number of common shares in the capital of the Corporation that may be reserved for issuance under the plan is limited to a maximum of 10% of the common shares outstanding.

On February 19, 2021, the Corporation granted to its directors, officers, employees and consultants 735,000 options exercisable at an exercise price of \$0.425, valid for 10 years. The options vested 100% at the grant date. Those options were granted at an exercise price equal to the closing market value of the shares the previous day of the grant. Total stock-based compensation costs amount to \$274,890 for an estimated fair value of \$0.374 per option. The fair value of the options granted was estimated using the Black-Scholes model with no expected dividend yield, 96.34% expected volatility, 1.26% risk-free interest rate and 10 years options expected life. The expected life and expected volatility were estimated by benchmarking comparable situations for companies that are similar to the Corporation.
